

INSTRUCTION & EVIDENCE REQUIREMENTS

The following prerequisite training must be completed;

- Isolation
- Defect Management
- Barricading and Cordoning Procedure

Additionally

If required to operate vehicles or mobile equipment within the active Mine Area, participant must complete the HVO Surface Transport Management Plan training.

RPL evidence must be attached and will be assessed for its relevance and currency in relation to the equipment authorisation being requested, along with a Letter of Competence from the employer outlining the relevant experience.

Return this completed form including all evidence to assessments@hvo.com.au
